

Notes from the Friends of St. Sebastian River
Board of Directors' Meeting, March 10, 2020

Please view the full agenda package for more details – see the link on the “Library/Newsletters” page of our website here - www.fssr.org/library.htm.

President's Report – a family membership in the Friends of the North IRC Library will not solve the issue of having our meetings, at the library, posted on their public calendar.

IR Lagoon NEP Small Grant Application submitted for a project of habitat restoration at the Kashi Community, for approximately \$1000. Expect to know if we receive the grant, or not, by mid-May.

Buzz Herrmann and Graham Cox attended a City of Sebastian workshop at the Mar. 3rd Natural Resources Board Committee meeting, as part of the required review of the City's Comprehensive Management Plan, specifically discussing coastal management issues.

The FL Today 2016 IRL Documentary to be shown at our General Meeting, Tue., March 24.

Approximately \$500 was made at this year's yard sale fundraiser. Light rain kept some folks away and we lacked the large, more expensive items we had last year. Buzz and LeeAnn expressed that they didn't plan to participate in a sale next year. Board needs to consider alternative fundraising events for the future. Thanks to all who donated and helped with the sale!

Motion approved to renew our General Liability insurance policy for \$489.

Tim assumed the Chair of the Financial Committee, as a result of taking over temporarily as treasurer, from Bill. LeeAnn to serve as Chair of Fundraising sub-committee.

FSSR member Ted B. is helping with the development of walking trail details/tours and eventually a “virtual tour” that we can post on our website. As a result of his considerations, he is looking into options for a redesign of our entire website.

Announcements

- City of Sebastian Earth Day Celebration, Sat., Apr. 25, 9am to 4pm, Riverview Park
- Next BOD Meeting, Apr. 14th, 4pm, Donald MacDonald Park
